KIT CARSON COUNTY HAS FIRST CONFIRMED CASE OF COVID-19

As was expected and inevitable, Kit Carson County received word that the first confirmed case of COVID-19 has occurred. Kit Carson County Department of Public Health and Environment, Kit Carson County Health Services District as well as the Medical Clinic are working together to address all positive cases as they are identified. While the first case has arrived, the important thing to remember is to maintain social distancing directives from the Governor in order to stop or slow the spread of COVID-19 in our communities. Please do your part. If you have been advised to stay home because of symptoms or being around another individual who has been tested, please self-quarantine as you are directed by the Health Department, your provider, or by the hospital. By complying with self-quarantine, you are doing your part in keeping everyone healthy. If you are concerned about your health, or have questions, call Kit Carson County Department of Public Health and Environment at 719-346-7158, ext. 116.
